

# CSS Level 1 - Button Styling Reference

## 0. Plain button - no CSS

This is the browser default button with absolutely no CSS. We only wrote the HTML:

```
<button>Click Me!</button>
```

## 1. Text Color

```
color: red;
```

## 2. Background Color

```
background-color: black;
```

## 3. Width & Height

```
width: 200px;  
height: 50px;
```

Wide Button

## 4. Border

```
border-color: red;  
border-width: 5px;  
border-style: solid;
```

Border Demo

## 5. Border Radius

```
border-radius: 7px;
```

Rounded Corners

## 6. Font Styling

### font-size

```
font-size: 24px;
```

### font-weight

```
font-weight: 800;
```

## font-family

```
font-family: "Courier New", monospace;
```

Font size:

Small text

Big text

Font weight:

Light text

**Bold text**

Font family:

Courier text

## 7. Hover (Bonus)

Minimal hover example: only background and text color change on hover.

```
#b2{
  background-color: white;
}
#b2:hover{
  color: white;
  background-color: black;
}
```
