

# HTML Reference — Lesson 1

This reference sheet shows the essential HTML tags taught in Lesson 1. A short quick-reference appears at the end.

## Heading Tags — `<h1>` to `<h6>`

Used for titles and subtitles. `<h1>` is the largest heading and `<h6>` is the smallest.

```
<h1>Main Title</h1>
<h3>Subtitle</h3>
```

**Main Title**

**Subtitle**

## `<p>` — Paragraph

Used for blocks of text.

```
<p>This is a paragraph of text.</p>
```

This is a paragraph of text.

## `<a>` — Link

Creates a clickable link to another page.

```
<a href="https://example.com">Visit Page</a>
```

[Visit Page](https://example.com)

## <img> — Image

Displays an image. Uses **src**, **alt**, and **width**.

```

```

## <button> — Button

A clickable button.

```
<button>Click Me</button>
```

[Click Me](#)

## Lists — <ul>, <ol>, <li>

**<ul>**: bullet list

**<ol>**: numbered list

**<li>**: list item

```
<ul>
  <li>Speed: 90</li>
  <li>Stealth: 97</li>
</ul>
```

- Speed: 90
- Stealth: 97

## **<br> — Line Break**

Moves the next text to a new line.

```
Line 1<br>Line 2
```

Line 1  
Line 2

## **<hr> — Horizontal Line**

Creates a dividing line.

```
<hr>
```

## Quick Reference (Short)

Use this when you simply need to remember the syntax.

```
<h1>Title</h1>
```

```
<p>Text</p>
```

```
<a href="">Link</a>
```

```
<title>Page Name</title>
```

```
<img src="" alt="" width="">
```

```
<button>Press</button>
```

```
<ul><li>Item</li></ul>
```

```
<ol><li>1</li></ol>
```

```
Line 1<br>Line 2
```

```
<hr>
```
